PROFESSIONAL SUMMARY

Dynamic and results-driven **Full Stack Developer** with 3+ years of professional experience designing, building, and deploying robust web applications. Highly proficient in **Laravel, Vue.js, PHP, and Python**, with advanced expertise in modern DevOps practices including **Docker, Kubernetes, and AWS (EC2)**. Strong foundation in **System Design**, building scalable microservices, and automating web workflows using **Python Selenium**. Proven track record of delivering secure, high-performance, and database-driven solutions for e-commerce, business, and security platforms.

TECHNICAL SKILLS

Backend Development	PHP (Laravel, MVC architecture), Node.js, Express
Frontend Development	Vue.js, JavaScript (ES6+), HTML5, CSS3, AJAX, Bootstrap
DevOps & Cloud	Docker, Kubernetes (K8s), AWS (EC2, S3, RDS, IAM), Linux, Git / GitHub
Automation & Testing	Python Selenium, Web Scraping, Automated QA Testing
Databases & Systems	MySQL, PostgreSQL, System Design (Microservices, Monolithic Refactoring)

WORK EXPERIENCE

Full Stack & DevOps Developer | Da Prime Production

1.5 Year

- Developed full-stack web applications using **Laravel** and **Vue.js**; built and integrated secure RESTful APIs.
- Containerized applications using **Docker** and orchestrated infrastructure via **Kubernetes** for dynamic scaling.
- Managed cloud deployments on **AWS** using EC2, S3 buckets, and RDS instances.
- Automated browser testing and dynamic data workflow operations using **Python Selenium**.
- Applied **System Design** practices to optimize MySQL database structures and query latency.

PHP Laravel Developer | Fission Fox, Karachi

1 Year

- Developed custom PHP & Laravel web platforms utilizing strict **MVC architecture** and clean-code practices.
- Created modular frontend Vue.js components integrated perfectly with asynchronous backend services.
- Maintained database-driven applications using MySQL and enhanced live modules based on client needs.

Associate PHP Developer | Interactive Media, Karachi

1 Year

- Assisted in building PHP systems, writing backend SQL queries, and processing dynamic asynchronous requests via AJAX.
- Participated in core debugging, continuous testing routines, and feature enhancements.

Computer Operator / IT Support | Horizon Institute, Karachi

1 Year

- Managed local network infrastructure, hardware/software deployment, and server troubleshooting.

EDUCATION

Virtual University of Pakistan

BSCS (Bachelor of Computer Science)

Diploma (C.I.T)

Computer Information Technology

COURSES & CERTIFICATIONS

Cloud Native Computing

Linux | Docker | Kubernetes | Git
